***Allowable Subject Matter***

1. Claims 18, 21 – 27, and 30 – 33 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The present invention is directed to a transmitting apparatus and transmitting method using Orthogonal Frequency Division Multiplexing (OFDM). Each independent claim identifies the uniquely distinct features:

Regarding claim 1, A spreading section that performs spreading processing of the systematic bit data and the parity bit data, with a spreading ration of "1"; a multiplexing section that code-multiplexes the systematic bit data and the parity bit data subjected to spreading processing in said spreading section, with a code multiplexing number of "1".

Regarding claim 33, a step of performing spreading processing of the systematic bit data and the parity bit data outputted, using a spreader, with a spreading ratio of "1"; a step of code-multiplexing the systematic bit data and the parity bit data subjected to spreading processing, using a multiplexer, with a code multiplexing number of "1".

The closest prior art, Mody discloses a conventional wireless Orthogonal Frequency Division Multiplexing (OFDM) communication system, either singularly or in combination, fail to anticipate or render the above features obvious.
